

## Here at Studley Grange we know that gardening is good for you!

Times are tough in so many ways right now, we didn't want to have to close the doors, but ultimately it is the right thing to do for everyone's safety. A few of us are still here at Butterfly World and in the Garden Centre. The Animals can't be trusted to feed themselves and they definitely will

not muck themselves out! Equally the garden centre is full of fresh colourful plants ready for the garden, which will be even bigger and better as soon as we can welcome you all back again.

We experienced some really busy days just before we had to close with customers filling their trollies with gardening essentials, so we know many of you are eager to get out gardening. With this in mind we have worked really hard to get a selection of the most popular plants and essential gardening products available for you to order for home delivery.

This is new to us and we have limited resources available, but we want to make it work; the income we generate is going to help pay to feed the animals. Many of you will want to buy seeds, for the best availability we suggest you order directly from our supplier:

<https://www.mr-fothergills.co.uk/> then come back to us for the compost and everything else. To help us make this happen as smoothly as possible we have included the following terms and conditions which we would like to follow (however, if we need to, we can bend the rules!) which we have set out below.

Finally, we will be adding to the items available over the coming weeks, especially plants as they start to flower so please keep an eye on our website and facebook page for updates. If there are any products which we have not listed which you would like to order please include this in your email (not seeds please!) and we will see what we can do.

Please use the dedicated email address to communicate about any requirements you have: [orders.studleygrange@gmail.com](mailto:orders.studleygrange@gmail.com) (sorry but as we are out and about so the phone will rarely be answered). We have included an order form which can be completed and returned to this email address please.

Under the current rules we are not allowed to offer a collection service, so all goods will have to be home delivered.

We will happily deliver to an area which is within about 5 miles of the garden centre, this covers Wroughton, Winterbourne Bassett, Royal Wootton Bassett, South-West Swindon and everywhere in between. We may be able to deliver outside of this area depending on how busy we are and the size of the order.

We are asking for a minimum delivery value of £50, this will include free delivery, please plan ahead and order as much as you think you will need over the coming weeks, perhaps even share with neighbours to make the delivery as efficient as possible.

We will aim to deliver your goods within 7 days of receiving the order, we will email you back to say we have the order and will then ring to take payment and advise you of a likely delivery day at some point over the next few days.

**Due to the current situation we ask for a place where we can leave the goods.** We will post your receipt through your letterbox.

Occasionally we may have to substitute an item, this is especially true on plants where the exact variety may vary, the value of the goods will be the same or higher than those advertised and we will agree this on the phone with you prior to taking payment.

We would like to thank you for your support.

**Tony, Jackie, Chris and the team at Studley Grange**

## Garden plants.

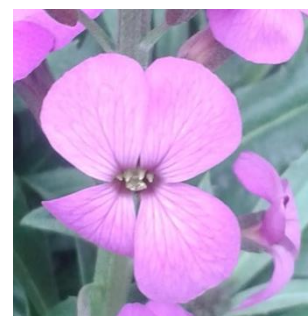

**Selection of 4 culinary herbs in 9cm pots, offer price £10 for 4.**

We are offering a selection of four culinary herbs in 9cm pots for a special price of £10. The selection will include mint, chives, sage and thyme. These look great planted up into a frost-proof small Harrogate terracotta pot like the one pictured (£12) and use John Innes number 3 compost (£4), they can be cut and used immediately in your cooking.

**Selection of 3 Erysiums in 2 litre pots, usually £7.99 each, offer price £20 for all 3**

These are one of the most popular garden plants and it is easy to see why! They are in flower and will continue to flower all the way through until the Autumn. They are best grown in a sunny spot, with good soil. They also add a good splash of colour when planted in a container, such as the frost-proof large Medium Harrogate pot, like the one shown which is available separately for £16.50 The varieties supplied will be Bowles Mauve, Rysi Copper and Winter Passion.

**Selection of 3 Heucheras in 2 litre pots, usually £9.50 each, offer price £25 for all 3**

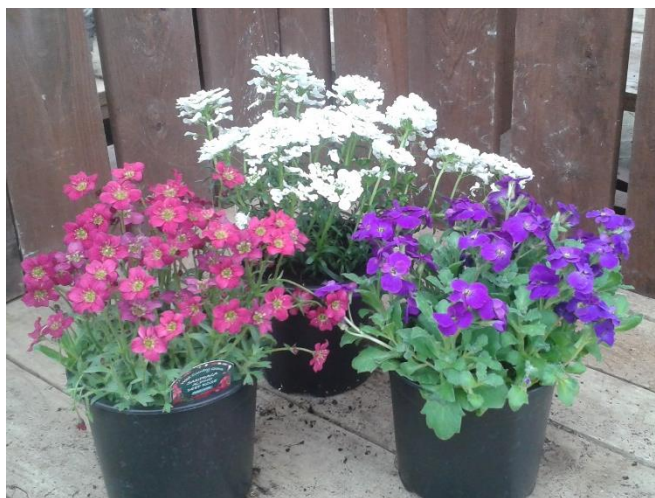

The showy colours of the foliage of Heuchera make them a great addition to any garden or container. They are evergreen and low growing, with dainty flowers during spring. They like moist conditions in sun or partial shade. The varieties supplied may vary, but will be of the best quality and will be in a range of colours.

**Selection of 3 Alpine plants in 1 litre pots, offer price £10 for all 3**

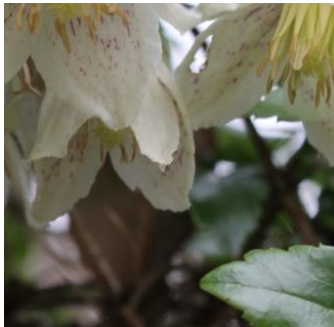

Low growing these will add colour to the front of borders or can be planted in a container such as the low alpine bowl which is pictured (£20). The varieties supplied will include 3

plants in a mixture of Saxifrage, Aubrietia, Iberis and Arabis. Alpines are best suited to sunny conditions.

**Selection of 3 Ranunculus plants in 1 litre post, usually £4 each, offer price £10 for all 3**

Ranunculus are enjoying a resurgence in popularity thanks in part to them making an excellent cut flower. They like moist soil in a sunny position. If the blooms are cut regularly or they are dead headed then they will continue flowering for long time. We will supply plants in range of colours.

**Clematis Chirossa Varieties in a 2 litre deep pot £15**

These are a beautiful evergreen, early flowering varieties which are currently loaded with flower bud. With pruning they will grow approximately 2 metres tall and will enjoy a sunny position in the garden with some support from a trellis or wires.

**Clematis Montana Varieties in a 2 litre deep pot £14**

Montanas are deciduous plants which flower prolifically during spring on the bare wood. To maintain their size and habit they can be pruned after flowering. The plant supplied will vary in variety but will be top quality with many flower buds

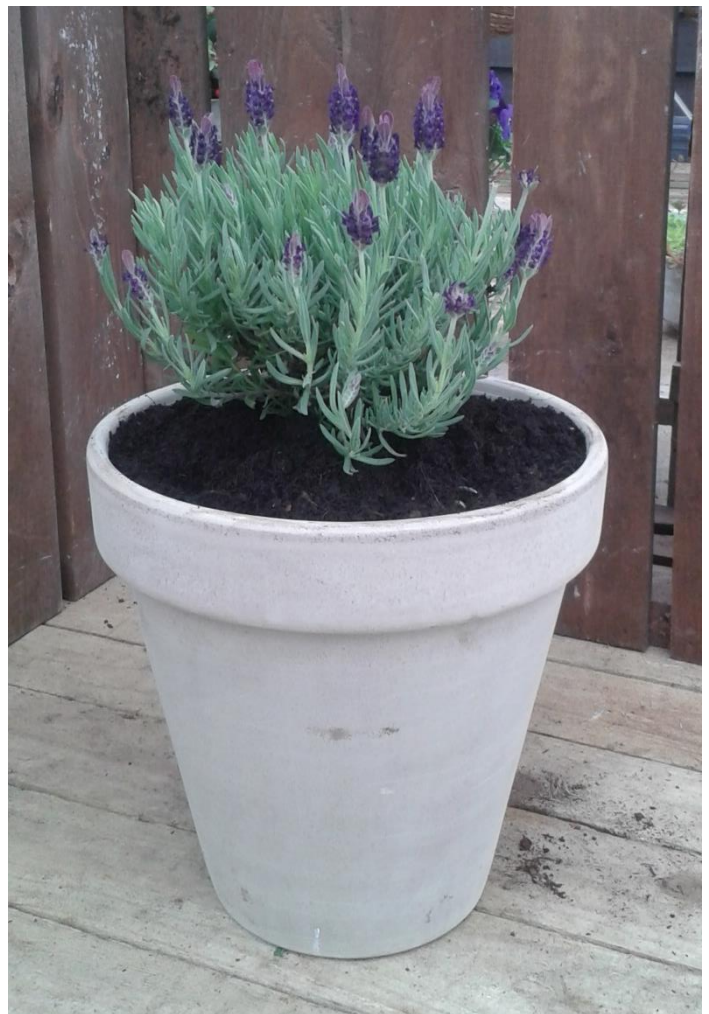

### **Ceanothus upright Varieties in a 3 litre pot £15**

The showy, blue, bee-like flowers of Ceanothus are hard to ignore. We will supply an upright variety which has been trained up a cane and will be smothered in flower bud. They are best grown against a sunny wall with some wires or trellis to help support and train the plant.

### **French Lavender 'Anouk' in a 2 litre pot £9.50**

Lavenders are one of the most sold plants in British Garden Centres. This early flowering variety is great to add fragrance and colour to a sunny spot in the garden. Planted in the basic cream flower pot (£5) it looks great! To prolong flowering cut off the faded blooms.

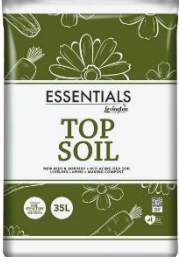

# Wild Bird Care

	<p><b>Honeyfields quality wild bird food 12.6kg £12</b></p> <p>A good value, quality Wild Bird Food this is suitable for hanging, table and ground feeders. Contains; Wheat, Black Sunflower, Cut Maize, Oats, Yellow Millet, Red Millet, Red Dari and Rapeseed Oil.</p>
